

# **OFFICIAL UNION HEALTH ALERT**

## **Whitehorse Correctional Centre**

Are you being exposed to drug smoke at your place of work?

Exposure to second hand smoke from illegal drugs in the workplace can result in both short-term and long-term damage to your health.

We strongly recommend that you document all cases of workplace exposure to drug smoke. If the employer is not taking action to eliminate the problem, we suggest you file a grievance to bring the matter forward for resolution.

We also suggest that you contact the Yukon Workers Compensation, Health & Safety Board to ensure that a record of the exposure exists in the event a claim for compensation is required.
